Cell Phone Number: (240) 401-0249

Education

University of Notre Dame | Notre Dame, IN

Bachelor of Business Administration / Business Honors Program / Expected Graduation: May 2027 / GPA: 3.63

- Major: Business Analytics
- Minors: Impact Consulting, Liturgical Music Ministry, Theology
- Presented with a team in five consulting case competitions for corporate consulting firms
- Wrote weekly managerial and technical reports based on retail pricing analytics cases

Work Experience

Verso Ministries | Notre Dame, IN

Operations Intern | Aug 2025 – Present

- Streamline logistics for 1000+ global travelers by managing sensitive datasets that integrate traveler flight, health, and passport information for international Destination Management Companies.
- Identified critical friction points in documentation processes and developed SOPs to streamline internal and client-facing logistics, reducing documentation time by 20% and ensuring consistency across our 100+ trip offerings.
- Engineered a data-driven expansion strategy into the African market by scraping and synthesizing DMC data to benchmark service offerings.
- Synthesized 10 years of disparate customer data from multiple sources using Python to drive a targeted outreach strategy for the company's older customer segment
- Maintained a 100% resolution rate in HubSpot CRM within a 24-hour SLA

Confidential Hedge Fund | Bethesda, MD

Research & Analytics Intern | July 2025 – Aug 2025

- Developed Python scripts to scrape bulk data and stored results in MongoDB to automate financial decision-making.
- Architected web-scraping tools to extract critical metadata from financial news sources and articles to streamline accurate industry information in record time.
- Translated complex data analysis and industry research into 4 comprehensive reports, presenting actionable insights for senior investment staff in 3 executive briefings.

Dietrich Logistics | Bogotá, Colombia

Accounting & Sales Research Intern | July 2024 – Aug 2024

- Improved organizational efficiency by revising the company's account plan and streamlining international record-keeping workflows.
- Logged and audited 80+ international shipping transactions within the ERP system, ensuring high data accuracy for financial reporting.
- Conducted data-driven market research to identify and qualify hundreds of potential providers, directly supporting international business expansion to southern Asia.
